

## Invited Talks on DC Microgrid

The aegis of RECTPCL funded CSR project conducted an invited talk on 27-10-2017. This talk was delivered by an eminent personality Prof. Sukumar Mishra, Professor IIT Delhi on “DC Microgrid Operation, Control and Management”. This talk is very much beneficial to the researchers and students to know about the possibilities of renewable energy source (solar array) usage in the domestic applications. Also, it is helpful to introduce new techniques and methods to improve the performance of renewable energy generation to form an efficient DC microgrid.
